

**Northwest Region Technical Input Team
Seattle, Washington
September 13-14, 2011**

Activity: Regional Technical Input Team Meeting

Presenter(s): T.C. Richmond, Fred Lipschultz, and leadership from the NW technical input team

Recorder: Fred Lipschultz, Regional Coordinator, National Climate Assessment

The technical input team for the Northwest NCA region reached out to the region's climate community at the 2nd Pacific Northwest Climate Science Conference in Seattle from 13-14 September, 2011. T.C. Richmond and Fred Lipschultz shared a plenary talk laying out the NCA vision to the conference attendees, and then the NW leadership team presented more specifics about the plans for the NW assessment during a lunchtime meeting with about 50 participants. More than 15 people signed up to prepare expressions of interest or to indicate their willingness to actively participate in the regional assessment. The technical input leadership team held a subsequent debrief to discuss the path forward.
