

This is a new feature of our website and we will be adding content to this over the coming weeks and months. Here you will find contacts, links to press releases, media advisories, and other resources.

**Current releases:**

**\*New authoritative climate impacts report\*:**

["Global Change Impacts on the United States"](#) . For press materials on this report, please visit the report's [newsroom](#)

**\*New climate change toolkit for educators\*:**

[Climate Change Wildlife and Wildlands Toolkit](#) . The interagency initiative provides resources for formal and informal education about the impact of climate change on wildlife across the United States. For more information please visit the ["about this toolkit"](#) page.

### **Most Recent Releases:**

Over the past several years, more than twenty reports, focused on different areas of climate change and variability, have been written by teams of authors and led by different GCRP-participating agencies. The most recent of these reports to be released are below. All of the reports and associated materials can be found here: [US GCRP reports and assessments](#)

Most recent assessments, and their press releases and factsheets:

- Report on: "[Coastal Sensitivity to Sea-Level Rise: A Focus on the Mid-Atlantic Region](#)".  
Led by EPA
  
- Report on "[Thresholds of Climate Change in Ecosystems](#)". Led by US Geological Survey
  
- Report on "[Aerosol properties and their impacts on climate](#)". Led by NASA
- Report on "[Past Climate Variability and Change in the Arctic and at High Latitudes](#)". Led by US Geological Survey
  
- Report on "[Abrupt Climate Change](#)". Led by US Geological Survey

For more reports and assessments from the Program, please visit our [reports and assessments page](#)
